

Environmental Health Continuous Improvement Board

REPRESENTED CONSTITUENCIES

Each Environmental Health Continuous Improvement Board (EHCIB) member is selected to represent a specific constituency, with whom they have the responsibility to communicate. Constituencies are made up of local jurisdictions based on whether they are a community health board (CHB); whether they have a food, pools, and lodging services (FPLS) delegation agreement (i.e. have a locally run FPLS program); and their region of the state. Some constituencies are statewide.

Constituency, EHCIB member(s), and associated Jurisdictions

City (non-CHB) locally delegated FPLS program
