

Example of Chemical Nomination

***1. Please list the name of the contaminant and the chemical registration number (CAS), if known (go to [ChemIDplus](#) to look up registry numbers).**

Chemical X, CAS#123-45-6

***2. Please tell us why this contaminant concerns you.**

I am concerned because this chemical is an ingredient in consumer products that I use daily and it is being found in rivers and streams in Minnesota. I've heard this chemical may be harming fish and I want to know what it might do to me and my family.

***3. How did you learn about this contaminant?**

I read this article: www.news.com/chemical_found

***Please provide your name, affiliation (if applicable), and contact information (email, telephone, or address). In order to assess nominated contaminants, CEC staff may need to contact you for additional information.**
