Cybersecurity Assessment Certification Form

ANNUAL CERTIFICATION FOR PUBLIC WATER SYSTEMS

Public water systems (PWSs) that utilize operational technology (OT) as equipment or to operate any portion of their water system are required to certify with the Minnesota Department of Health (MDH) that a cybersecurity assessment has been completed. Commonly used OT at a PWS is a Supervisory Control and Data Acquisition (SCADA) system. For information on suggested cybersecurity assessment materials see Assessing Security of Public Water Systems (https://www.health.state.mn.us/communities/environment/emergency/water/securityassess.html).

Submit this form to MDH via email before July 1 each year, to certify that the assessment has been completed. Email the completed certification form to MDH at Health.cybercertification@state.mn.us.

PWS information

Name of PWS: _____

PWSID: _____

Date of cybersecurity assessment: _____

Date of certification submittal: _____

Person or company completing assessment: _____

Type of assessment (self or third party): _____

Certification statement

I, _____ (name of certifying person) hereby certify that the public water system named above has conducted or reviewed and updated an annual cybersecurity assessment.
