Introduction

The Minnesota Department of Health (MDH) manages the Minnesota Stroke Portal. The Portal is a free and robust system available to all hospitals to submit, store, and review their facility's stroke patient quality of care data as well as apply for Acute Stroke Ready Hospital designation.

The Minnesota Stroke Portal is comprised of five different components:

- Administration
- Minnesota Stroke Registry
- Reports
- Designations
- Resources

m DEPARTMENT OF HEALTH Home Resources ▾

Welcome to the Minnesota Stroke Portal!

[Log in](#)

If you are having trouble logging in or need an account for the Minnesota Stroke Portal, please email health.stroke@state.mn.us

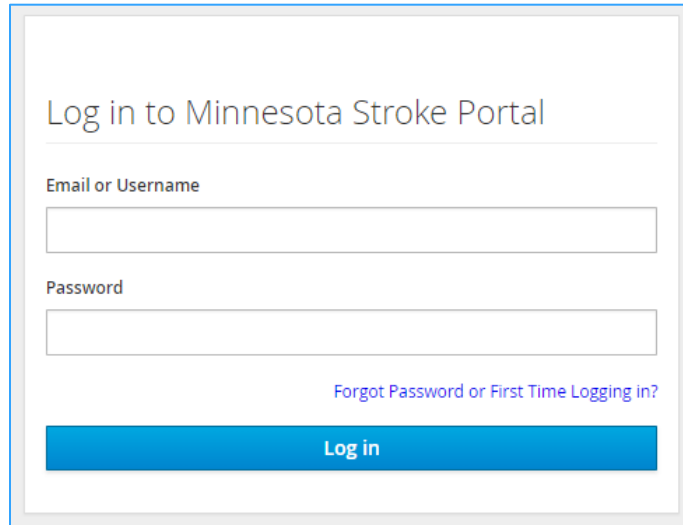

For more information, please go to [Minnesota Stroke Program Resources](#)

Getting started

If this is your first time logging into the new Minnesota Stroke Portal, you will need to set a password.

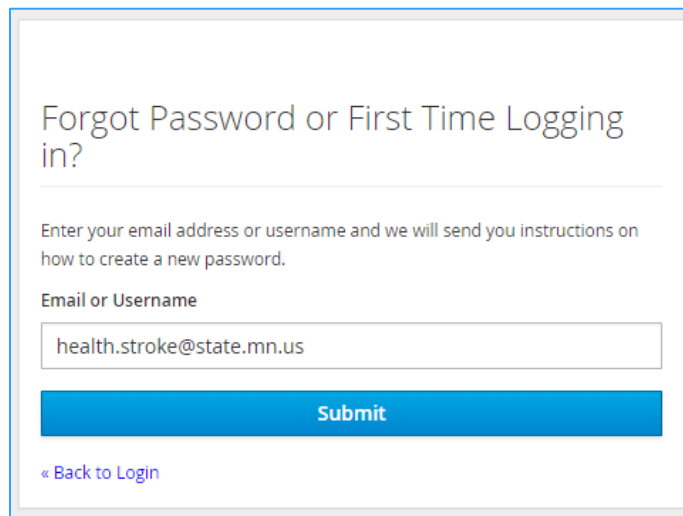

Resetting Your Password or First Time Logging In

1. Go to the [Minnesota Stroke Portal \(http://stroke.mn.gov\)](http://stroke.mn.gov)
2. From the landing page, click **Log in**.
3. Click on **Forgot Password or First Time Logging in?**

The screenshot shows the login page for the Minnesota Stroke Portal. At the top, it says "Log in to Minnesota Stroke Portal". Below this are two input fields: "Email or Username" and "Password". To the right of the password field is a link that says "Forgot Password or First Time Logging in?". At the bottom of the form is a blue button labeled "Log in".

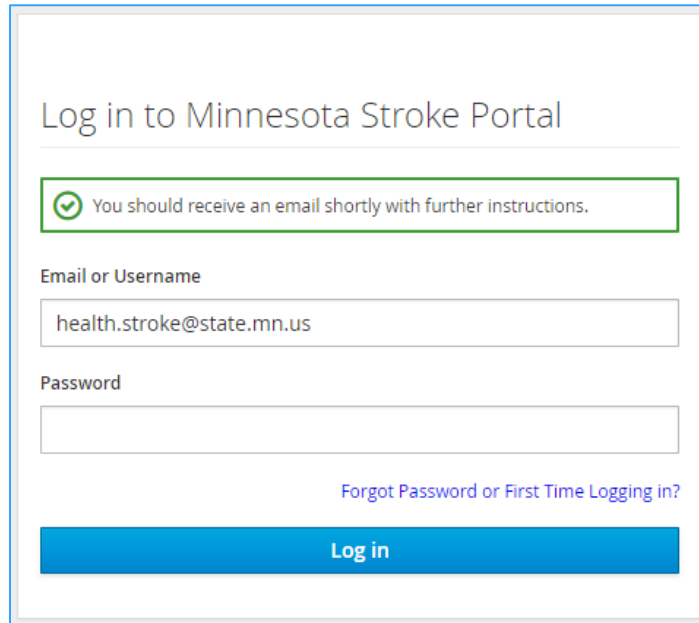

4. Enter your **Email address or Username**. (We recommend using your email address.)

The screenshot shows the "Forgot Password or First Time Logging in?" page. It has the heading "Forgot Password or First Time Logging in?". Below the heading is a message: "Enter your email address or username and we will send you instructions on how to create a new password." There is an input field labeled "Email or Username" containing the text "health.stroke@state.mn.us". Below the input field is a blue button labeled "Submit". At the bottom left, there is a link that says "« Back to Login".

MINNESOTA STROKE PORTAL NAVIGATION GUIDE

5. Click **Submit**. A message will appear stating you should be receiving an email shortly with further instructions.

Log in to Minnesota Stroke Portal

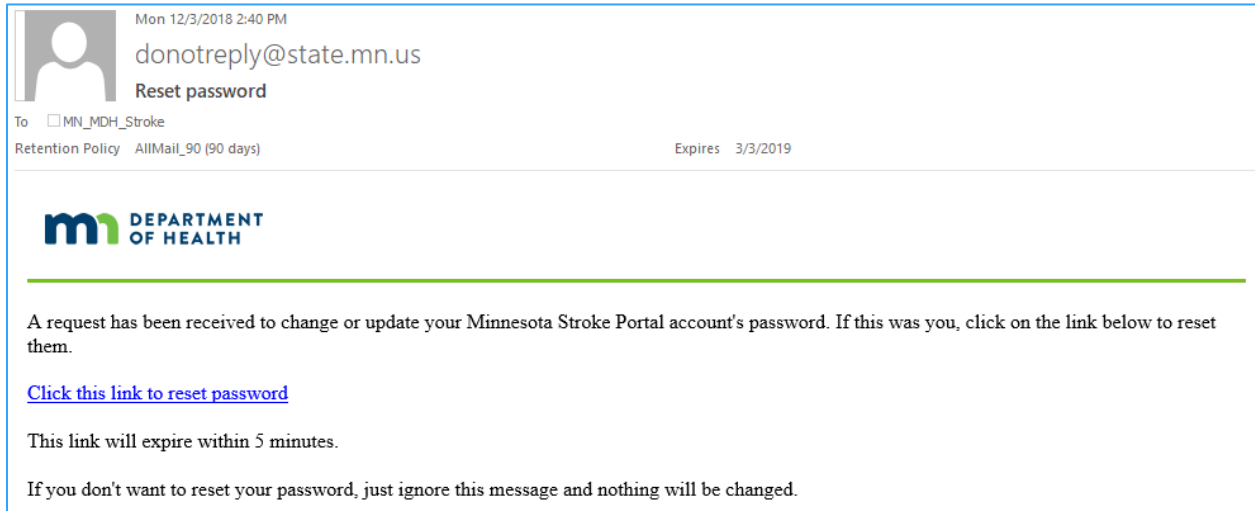

You should receive an email shortly with further instructions.

Email or Username

Password

[Forgot Password or First Time Logging in?](#)

6. An automated email from 'donotreply@state.mn.us' will be sent to you within a few minutes of submitting your email address. In the email, click on **Click this link to reset password**.

If you do not receive a link to reset your password or you need access to the Portal, please email health.stroke@state.mn.us for assistance.

7. A new internet browser tab will open to create a new password. Using the instructions below Update password, enter in a **New Password** and type the same password in **Confirm Password** box.

Update password

⚠ You need to change your password. Passwords need to be at least 10 characters in length, must contain at least 1 digit, 1 lowercase and 1 uppercase character, cannot be the same as the email, and cannot be the same as 3 previously used passwords.

New Password

Confirm password

Submit

8. Click **Submit**.
9. Once your password is set, the web page will redirect you to the Minnesota Stroke Portal homepage. You will already be logged into your account.

Administration

The **Administration** component of the Minnesota Stroke Portal is where you can view your facility information, including manage your facility and EMS agency favorites, and update your account.

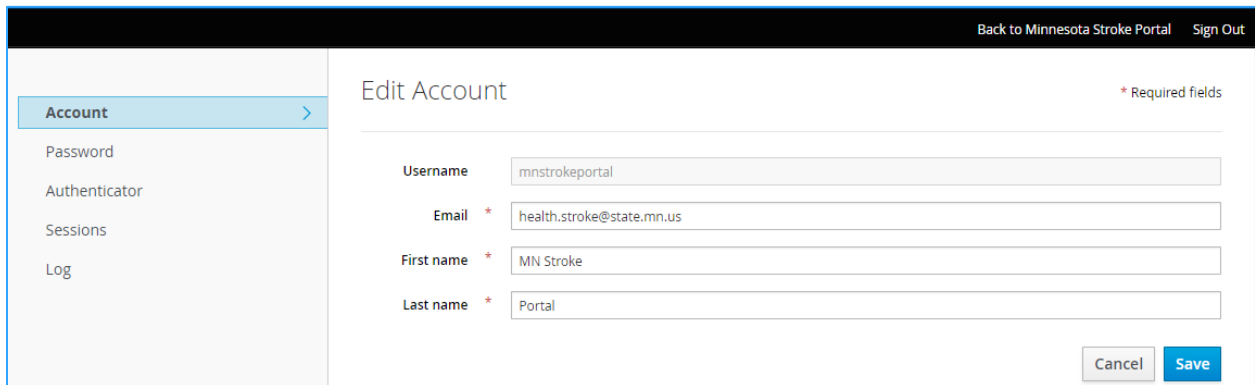

Manage user account

Update email or username

You can update your email address or modify your username at any time.

1. From the top right corner of the homepage, click on your **Username** and select **User Profile**.

2. Make the changes to the Username and/or Email.
3. Click **Save**. A success message will appear when the account has been updated.

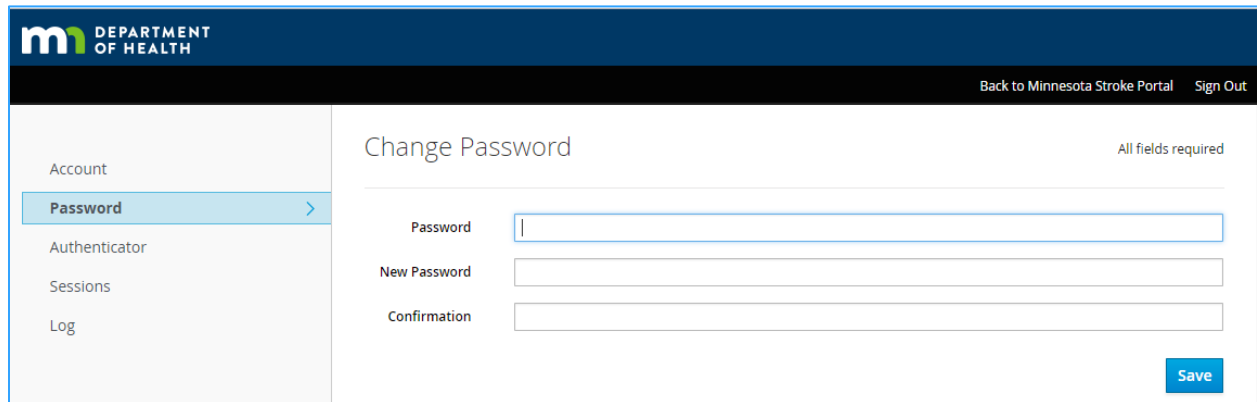

4. From the top right corner of your screen, click **Back to Minnesota Stroke Portal** to return to the homepage.

Change password

You can update your password at any time.

1. From the homepage, click on your **Username** in the top right corner and select **User Profile**.
2. Select **Password** from the column on the left.

The screenshot shows the 'Change Password' page in the Minnesota Stroke Portal. At the top left is the 'm DEPARTMENT OF HEALTH' logo. At the top right are links for 'Back to Minnesota Stroke Portal' and 'Sign Out'. On the left side, there is a navigation menu with 'Account', 'Password', 'Authenticator', 'Sessions', and 'Log'. The 'Password' option is selected and highlighted. The main content area is titled 'Change Password' and includes the text 'All fields required'. There are three input fields: 'Password', 'New Password', and 'Confirmation'. A blue 'Save' button is located at the bottom right of the form.

3. Enter in the current **Password**.
4. Enter in the **New Password**.
5. Enter in the new password again in **Confirmation** box.
6. Click **Save**. A success message will appear when the password has been updated.

7. From the top right corner of your screen, click **Back to Minnesota Stroke Portal** to return to the homepage.

Manage facility

The screenshot shows the 'Facilities' management page in the Minnesota Department of Health portal. The navigation menu includes Home, Stroke Registry, Reports, Designations, Data Exchange, Resources, Administration, and mnstroke. A dropdown menu under 'Administration' is open, showing options for Facilities, ICD-10 codes, Statin Medications, and EMS agencies. The main content area has a search bar for 'Facility name' with 'Search' and 'Reset' buttons. Below the search bar is a table with the following data:

Facility	Address	Primary contact	Secondary contact
Minnesota Department Of Health-Demo 01 (994)	85 East Seventh Place Saint Paul, Minnesota 55164	MDH, MDH health.stroke@state.mn.us, 218-888-8888	No secondary contact

Facility information

Users can view their associated facility's information to check if it is up-to-date.

1. From the homepage, click on **Administration** in top right corner of the menu banner.
2. Click on **Facilities**.
3. All of the facilities the user is associated with will appear. Click on the name of the **Facility** to view the address, Primary contact, Secondary contact, Favorite facilities and Favorite EMS agencies.

The screenshot shows the detailed view of a facility. The breadcrumb trail is 'Facilities / Minnesota Department Of Health-Demo 01'. The main heading is 'Minnesota Department Of Health-Demo 01'. The page is divided into several sections:

- Address:** 85 East Seventh Place, Saint Paul, Minnesota 55164
- Geographic coordinates:** Latitude: and Longitude: (fields are empty)
- Primary contact:** No primary contact, [Update](#)
- Secondary contact:** No secondary contact, [Update](#)
- Favorite facilities:** Abbott Northwestern Hospital, [Unfavorite](#), [Add favorite](#)
- Favorite EMS agencies:** St. Paul Fire, [Unfavorite](#), [Add favorite](#)

4. Please **email** health.stroke@state.mn.us to update to the facility address information.

Favorites

Hospitals have the ability to develop a “Favorites” quick-pick list to place frequently used facilities and EMS agencies at the very top of the list (drop-down menu) when entering a case into the Minnesota Stroke Registry’s Case Report Form. Favorite lists can expedite case entry by eliminating the need to scroll.

To add or edit your hospital’s Favorite facilities or EMS agencies:

1. From the homepage, click on **Administration** in top right corner of the menu banner.
2. Click on **Facilities**.
3. Select the name of the facility.
4. Click **Add favorite** on **Favorite facilities** or **Favorite EMS agencies**.

6. A success message will appear at the top of the facility information and note that the facility or EMS agency has been favorited.

• Facility has been favorited.

Stroke Registry

The **Minnesota Stroke Registry** component of the Minnesota Stroke Portal is the statewide registry for acute stroke patient quality of care data. Hospitals abstract stroke-specific information from the patient's medical record into the registry to meet reporting requirements for the Minnesota Statewide Quality Reporting and Measurement System (SQRMS).

The Minnesota Stroke Registry's Case Report Form uses conditional branching to streamline entry. Only questions that apply to the case will appear. Based on the answer to a question, additional questions may be required. Required questions will have a red asterisks.

Case confirmation will not be required in the first version of the new Minnesota Stroke Portal. An improved method will be released at a later time.

Case entry

Entering and closing a case

1. From the homepage, click on **Stroke Registry** on the top menu banner.
2. Click **New Stroke Case**.

Stroke Registry

Patient ID

3. Enter the unique case ID in **Patient ID** and select the appropriate **Facility**.

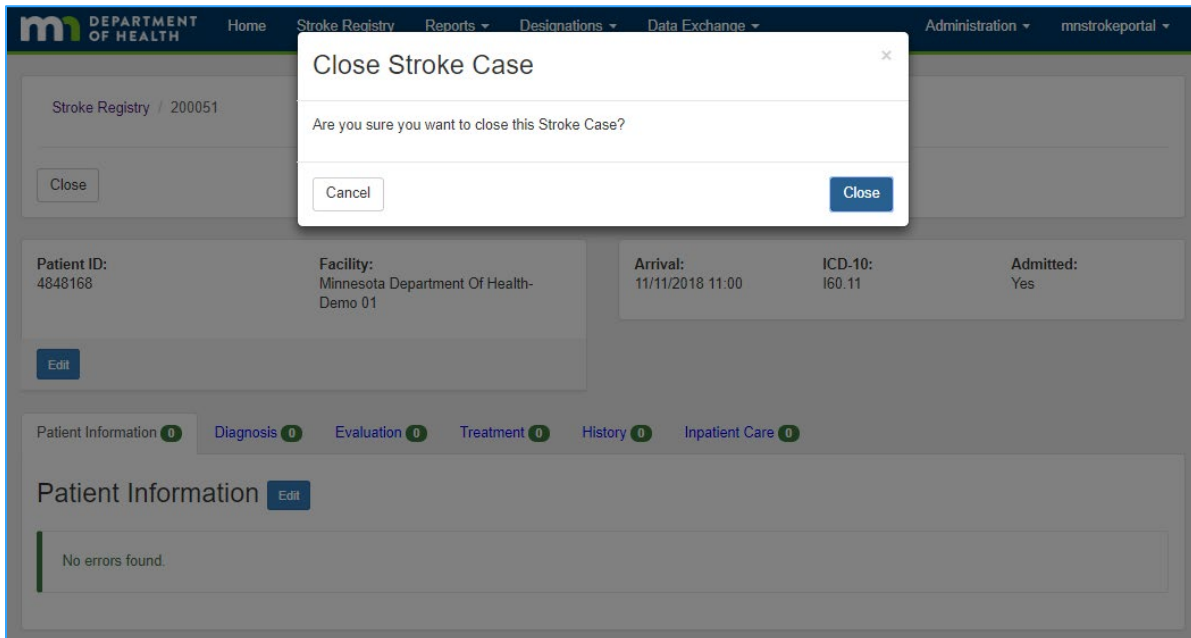

4. Click **Create**. A message will appear stating that the Stroke Case created successfully.

Note: At the top of each tab, a number will display in red to indicate the amount of required fields needing to enter in that section. Once all the required information on a tab has been input and saved, the number next to the title of each section will change to **zero** and turn green.

5. Click **Edit** next to any of the section titles to start entering information.
6. At the bottom of the tab, click **Save** to save entered work and to stay on the same tab or click **Save and continue** to save progress and move to the next tab.
7. Click **Close** at the bottom of any tab when all required fields have been entered.

MINNESOTA STROKE PORTAL NAVIGATION GUIDE

8. A box will appear to confirm the user wants to close the stroke case. Select **Close**.

9. A message will appear at the top of the screen stating the case closed successfully.

Case management

Viewing a closed case

You can review what was entered for a case without opening it. Use the search boxes or column sorting feature to locate the case.

To view a closed case:

1. From the homepage, click on **Stroke Registry**.
2. Type in the **Patient ID** for the case to view or update.

6. Click **Edit** next to any of the section titles to start entering information.

The screenshot displays a web interface for a stroke case. At the top, a green notification bar reads "Stroke case opened successfully!". Below this, the breadcrumb "Stroke Registry / 124414" is shown. A "Close" button is located in the top left. The main content area is divided into two sections. The left section contains "Patient ID: 25576546" and "Facility: Minnesota Department Of Health-Demo 01", with an "Edit" button below. The right section contains "Arrival: 12/17/2015 12:48", "ICD-10: I61.0", and "Admitted: Yes". Below these sections is a horizontal navigation bar with tabs: "Patient Information 1", "Diagnosis 1", "Evaluation 5", "Treatment 2", "History 0", and "Inpatient Care 12". The "Patient Information" tab is highlighted with a red box, and its "Edit" button is also highlighted with a red box.

7. Make the changes on the case and click **Save** at the bottom of the section.

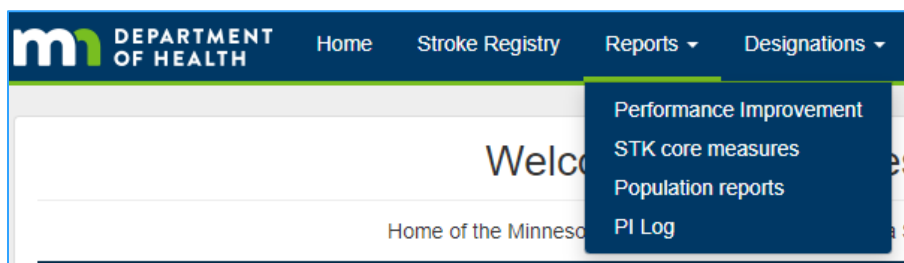

8. Click **Close** when finished and all numbers have been changed to zero.

Deleting a case

If a case needs to be deleted:

1. Email health.stroke@state.mn.us with the facility, Patient ID, and Arrival or Discharge Date.
2. You will receive an email confirmation after the case has been successfully deleted.

Reports

The **Reports** component of the Minnesota Stroke Portal is where hospital users can run various reports on the data they have submitted, such as compliance for stroke core measures, door-to-action indicators, and case-level detail on all cases during a specified timeframe.

There are four different report sets available:

- Performance Improvement
- STK core measures
- Population reports
- Performance Improvement (PI) Log

Report sets

Performance Improvement reports

- Door to Stroke Team Activation (*temporarily removed*)
- Door to Telestroke Activation (*temporarily removed*)
- Door to Imaging Initiated < 25 minutes (all patients, no exclusions)
- Door to Imaging Initiated < 25 minutes (SQRMS)
- Door to Imaging Read < 45 minutes
- Door to Needle < 60 minutes (all patients, no exclusions)
- Door to Needle < 60 minutes (SQRMS)
- Door-In to Door-Out < 120 minutes
- Last Known Well to Arrival

STK core measure reports

- STK-01 - Venous Thromboembolism (VTE) Prophylaxis
- STK-02 - Discharged on Antithrombotic Therapy
- STK-03 - Anticoagulation Therapy for Atrial Fibrillation/Flutter
- STK-04 - Thrombolytic Therapy
- STK-05 - Antithrombotic Therapy By End of Hospital Day Two
- STK-06 - Discharged on Statin Medication
- STK-07 - Dysphagia Screening
- STK-08 - Stroke Education
- STK-09 - Smoking Cessation Counseling
- STK-10 - Assessed for Rehabilitation

Population reports

- Number of cases by stroke type
- Number of cases by arrival mode
- Number of cases by transferred vs. admitted
- Number of cases by discharge disposition

Performance Improvement (PI) Log

Running a report

For the Performance Improvement, STK core measures, and Population reports:

Criteria

Hospitals

Minnesota Department Of Health-Demo 01

Minnesota Department Of Health-Demo 02

Minnesota Department Of Health-Demo 03

Report *

STK-01 - Venous Thromboembolism (VTE) Prophylaxis

Group *

Quarterly

Range

Range is limited to 10 years.

Quarter start * **Year start ***

Q1 2016

Quarter end * **Year end ***

Q4 2018

Run report Print

1. From the homepage, click on **Reports** on the top menu banner.
2. Select the appropriate report set from the drop down menu.
3. Select **Hospital(s)**.
4. Select **Report** or measure name.
5. Select the time **Group**. Annually (year start - year end), Quarterly (quarter and year start – quarter and year end), Monthly (month and year start – month and year end), or Date Range (date start - date end)
6. Enter **Start** and **End** date criteria.
7. Click **Run report**.
8. To print, click the **Print** button (next to the Run report button).
9. To save as a PDF, click **Print** and change the printer/destination to the option to **save as PDF**.

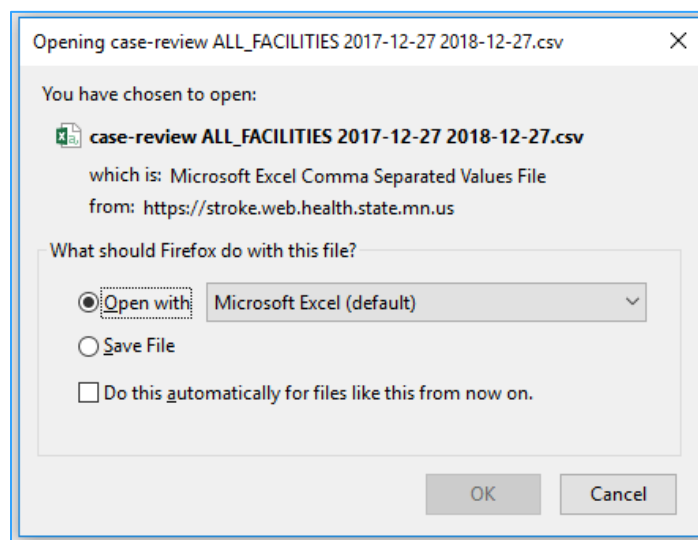

Note: Currently, case level data is not available for the Performance Improvement, STK core measures, or Population reports in the Portal. Each report shows the aggregate data based on the criteria entered as well as displays the aggregate data for all hospitals. There are no options to see case level detail for failures, cases, and exclusions.

For the PI Log (limited to 1,500 cases)

1. From the homepage, click on **Reports** on the top menu banner.
2. Select **PI Log**.
3. Select the **Facility** or **All facilities**.
4. Enter a **Start date** and **End date**.
5. Select the **Date Criteria** (to use patient's arrival date or discharge date).
6. Click **Export**. You should open this file in Excel. Depending on the internet browser, the message you receive to download the file will be different.
 - a. If you are using Internet Explorer, a dialog box will appear at the bottom of your screen. Click **Open**.

- b. If you are using Firefox, a dialog box will appear in the middle of your screen. Check that the radio button is next to Open with Microsoft Excel. Click **OK**.

- c. If you are using Google Chrome, click on the box will appear at the bottom of your screen. Click on the box to open the file.

MINNESOTA STROKE PORTAL NAVIGATION GUIDE

7. To print in Excel, click **Print**. Once the print dialog box appears, adjust the print settings in to optimize the display of data.
8. To save as a PDF from Excel, click **Print** and change the printer/destination to the option to **save as PDF**. Adjust the settings as needed.

Designations

Applications

Submitting a designation application

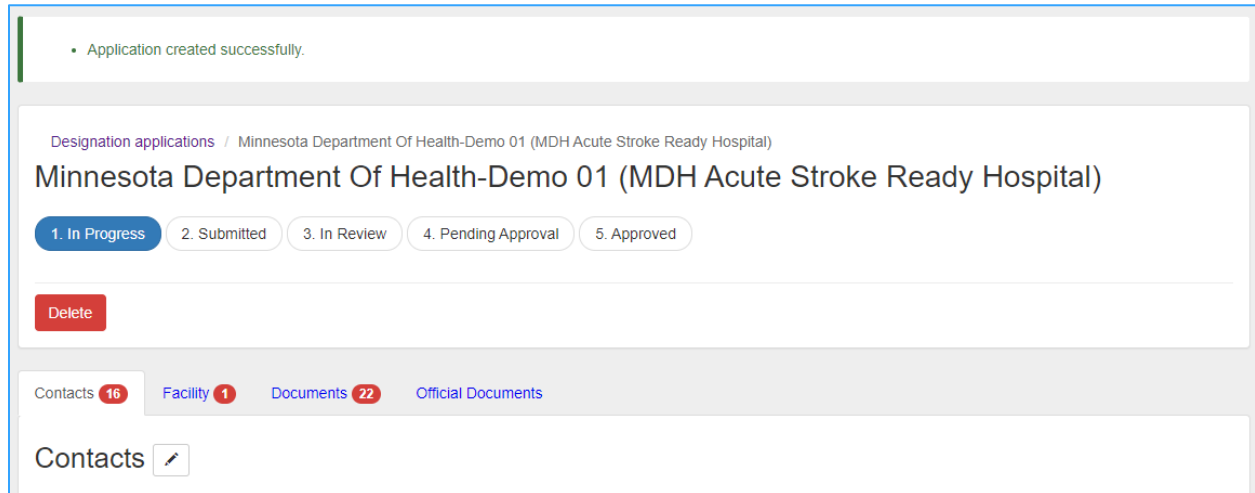

1. From the homepage, click on **Designations** on the top menu banner.
2. Click on **Applications**.
3. Click on **New application**.

4. Select the **Facility** and **Designation level** you are applying for, and then click **Create**.

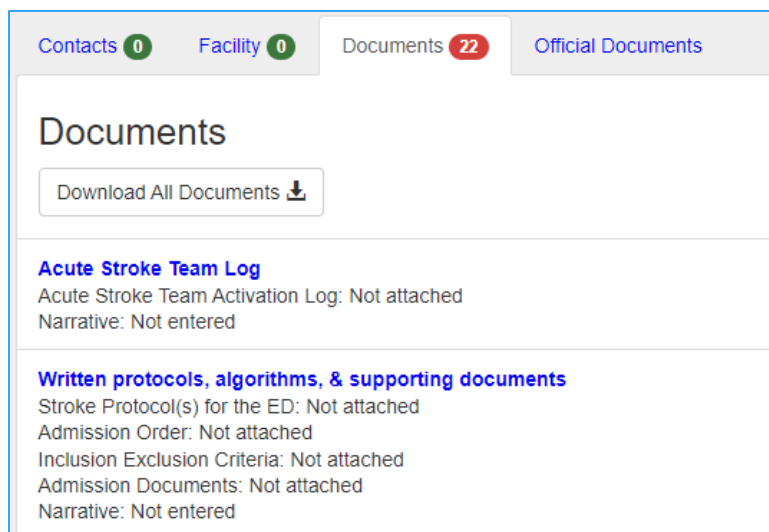

Note: At the top of each tab, a number will display in red to indicate the amount of required fields needing to enter in that section. Once all the required information on a tab has been input and saved, the number next to the title of each section will change to zero and turn green.

MINNESOTA STROKE PORTAL NAVIGATION GUIDE

- Click on the **Contacts** tab. To edit Contacts, click on the button (pencil icon) next to the Contacts title.

- Fill in all required fields noted in red, then click **Update** at the bottom of the page. If any contact information needs to be updated for the Primary contact or Secondary contact, please email health.stroke@state.mn.us.
- Click on the **Facility** tab. To edit Facility information, click on the button (pencil icon) next to the Facility title. Enter in the name of the facility you are applying for and click **Update** when finished. Important to note-This is the name that will appear on the certificate we will send you once your application has been approved.
- Click on the **Documents** tab. Each required section is hyperlinked in blue. Click on any hyperlink to begin entering narratives and/or uploading PDFs. Depending on the designation level you are applying for, the amount of required documentation will vary.

- Follow the instructions on each page of the required section. Respond to the questions in the narrative box (if applicable to your level of designation) and click **Update** when finished to save narrative. A message in green will appear at the top of your screen once the file has been uploaded successfully. Select **Choose File** to browse for the

appropriate PDF and double click on the file you would like to upload. Click **Attach** after each document. A message will appear at the top of your screen once the file has been uploaded successfully.

- File uploaded successfully!

Designation Applications / Minnesota Department Of Health-Demo 01 (MDH Acute Stroke Ready Hospital) / Stroke Code Activation Log

Stroke Code Activation Log

Stroke Code Activation Log Narrative

Describe how the stroke code activation log, stroke code activation process, works at your facility. How do you track stroke code activations in real time? How does this document support your performance improvement process?

Here's my stroke code activation log narrative!

Update

Activation Log as evidence of an Acute Stroke Team (AST) available 24 hours a day, 7 days a week.

Rationale:
 An acute stroke team (AST) is a key component of an Acute Stroke Ready Hospital. Studies have shown the importance of such a response team to provide organized care in a safe and efficient manner. The presence of an AST is an independent predictor of the ability to administer intravenous thrombolytic therapy (IV alteplase) and improve the outcomes of stroke patients. The AST includes all nurses and providers that respond to stroke, at a minimum, one nurse and one provider. The AST may be staffed by a variety of healthcare personnel depending on the resources available at a particular facility.

What do I need to submit?
Acute Stroke Team Activation Log that includes at a minimum the following: date and time of activation, response time to bedside, final admitting diagnosis in the ED, treatments and discharge disposition (admit, discharge, transfer). Please note: more than one log may be used for tracking of cases (for example, an activation log combined with PI log). If there is a combination of documents, please submit both for review.

Please submit a template of your log. We require tracking of all stroke code activations and will validate tracking **process** at the time of your site visit.

Attach the Acute Stroke Team Activation Log

Resources

The **Resources** component of the Minnesota Stroke Portal is where users can quickly access guidance materials within in the Portal. To keep the Portal open and look at the selected resource at the same time, right click on the resource and select to open the link in a new tab.

Descriptions

Minnesota Stroke Registry Abstraction Manual

Programmatic overview of the purpose and function of the Minnesota Stroke Registry including stroke case definition, data elements, reporting methods, data submission deadlines, and report specifications.

Minnesota Stroke Registry Data Dictionary

Abstraction companion resource with detailed instructions on how each data element entered in the Registry should be answered.

Minnesota Stroke Portal Navigation Guide

Step-by-step guide to help users new to the Minnesota Stroke Portal move about the website. Live recordings of these instructions are available on the MDH Stroke Program YouTube Channel.

MDH Stroke Program YouTube Channel

Recordings of previous Stroke Program online events, including past webinars and Minnesota Stroke Portal training tutorials. The tutorials offer a visual demonstration of the written instructions detailed in the Minnesota Stroke Portal Navigation Guide, such as how to enter a case into the Registry, run reports, and apply for designation. Tip: Have the Portal open to follow along with the tutorial.

Glossary

Users can find definitions of terms mentioned throughout the guide to describe different parts of the Minnesota Stroke Portal.

case history

The case history is a log in the Minnesota Stroke Registry of all the entered cases for the facility the user is associated with. The case history displays when the Stroke Registry is selected.

Case Report Form (CRF)

This form used to enter and submit case level information into the Minnesota Stroke Registry. This form uses conditional branching to streamline case entry, so only questions that apply to the case are visible. Based on the answer to a question, additional questions may be required.

components

The Minnesota Stroke Registry, Administration, Reports, Designations, and Resources components make up the Minnesota Stroke Portal.

home page

The home page is the page users are directed to after they log in. It acts as the main page where users can navigate to the different components of the Portal. To return to the home page, click Home located on the top banner.

ID

This is a unique system assigned ID given a case when it is created in the Minnesota Stroke Registry. Users cannot edit this ID.

landing page

The landing page is the first webpage you see when you go to [Minnesota Stroke Portal \(http://stroke.mn.gov\)](http://stroke.mn.gov).

login page

The login page is where you enter your Email or Username and password to log into the Minnesota Stroke Portal.

Minnesota Stroke Registry Tool (MSRT)

The MSRT is the name used for the old application that was replaced by the Minnesota Stroke Portal.

patient ID

The patient identifier is a unique identifier assigned to the patient by the hospital for the Minnesota Stroke Registry. Users can edit the Patient ID.

section

The Minnesota Stroke Registry and the Designation Application are organized into different sections or tabs to enter information. Each section title will display a number in either red or green to indicate how many required fields need to be entered.
