

Ticks, Mosquitoes, and Our Health

For laboratorians

Speakers

Elizabeth Schiffman,
MPH, MS
MDH

Anna Strain, PhD
MDH-PHL

Noon, Tuesday, March 24

Ask questions and learn about:

- Understand which vectorborne diseases are endemic in Minnesota
- Learn which testing for endemic and travel-associated vectorborne diseases is available at the MDH Public Health Laboratory
- Explain the methodologies used and correct interpretations for vectorborne disease testing at the MDH-PHL
- Describe current and future MDH vectorborne research projects
