WIC Adjunctive Eligibility based on School Meals

With the implementation of Minnesota's Free School Meals Program, **the process for determining Adjunctive Eligibility for WIC based on Free/Reduced Price School Meals remains the same.** Schools will notify families that have submitted an *Application for Educational Benefits* of their individual household eligibility for free/reduced price meals. Adjunctive eligibility for WIC based on School Meals will continue to be verified with a notice/letter often referred to as the "Application for Educational Benefits Notification of Results." This notice/letter states the student's total household income is within income guidelines for free/reduced priced meals.
