Introduction

This document provides a model Notice of Privacy Practices (NPP), based on the U.S. Department of Health and Human Services Model NPP and has been adapted to include Minnesota specific requirements. It has been endorsed by the Minnesota e-Health Privacy Security Workgroup and Minnesota e-Health Initiative and is meant to be a tool that can be adapted by providers and health care organizations to help meet their patient notification and education needs.

In 2014, the Minnesota Department of Health (MDH), in consultation with the e-Health Advisory Committee convened the Minnesota e-health Privacy and Security workgroup to provide materials and resources to health and health care providers to aid in implementing more robust privacy and security programs throughout the state. The work is ongoing, and available resources are online at <https://www.health.state.mn.us/facilities/ehealth/privacy/index.html>.
