Because they work together as an integrated system, they can better coordinate care and deliver a better member experience. Integration, collaboration and coordination among all providers within the network are critical to this model's success. As a result, non-partner clinics and facilities are not included in this network. The ACO network is developed to provide members access to a comprehensive group of providers. If a service or type of care is unavailable within the network, members may receive a referral to a non-network provider and receive in-network benefits.
