

# RUG-IV: Directory of Fact Sheets

UPDATED 05/04/2021

## What is Case Mix?

Minnesota Case Mix is a system that classifies residents into distinct groups, called Resource Utilization Groups (RUGs), based on the resident's condition and the care the resident received at the time of the assessment. A value is assigned to each group, which is then used to calculate the daily rate of payment. The following is a list of the fact sheets available related to Minnesota Case Mix Classification.
